

HBCU/MI Engagement Strategies

- **Section 233(b) of the 2016 National Defense Authorization Act required DoD-wide and Component strategies for how to engage HBCUs/MIs**
- **Goals and vision** for maintaining a credible and sustainable program relating to the engagement and support under the strategy
- **Metrics** to enhance scientific, technical, engineering, and mathematics capabilities at covered educational institutions, including with respect to measuring progress toward increasing the success of such institutions to compete for broader research funding sources other than set-aside funds
- Promotion of **mentoring** opportunities between covered educational institutions and other research institutions
- **Regular assessment** of activities that are used to develop maintain, and grow scientific, technical, engineering, and mathematics capabilities
- **Inclusion of faculty** of covered educational institutions into program reviews, peer reviews, and other similar activities
- **Targeting** of undergraduate, graduate, and post-graduate students at covered educational institutions for inclusion into research or internships opportunities within the military department

The strategies are available on-line at: http://oasdre-hbcumiworkshop.com/presentations_2017.html
